Field note — first-generation Theta, and it shows

The G4KA is the original 2.0 Theta, not the Theta II G4KD that replaced it. Same 86 × 86 mm square dimensions, but different generation, different management and a different price on our list. Older platform means older donor cars, which is exactly why the intake inspection on this code is the same as on everything else: it passes as Grade A or we do not buy it.
